

The Inflammation Research Association is organizing a session focused on ***Immune Tolerance*** at the upcoming 14th World Congress on Inflammation (September 15 – 19, 2019) at The International Convention Center in Sydney Australia.

Ethan Shevach, MD

Chief, Cellular Immunology Section
Laboratory of Immune System Biology
National Institute of Allergy and Infectious Diseases
National Institutes of Health

Tentative title: The Role of Regulatory T cells in Preventing Autoimmunity: The Past, Present, and Future

Professor Ranjeny Thomas, MBBS

Arthritis Qld Chair of Rheumatology
The University of Queensland Diamantina Institute

Expertise: Pre-clinical and clinical tolerance research focused on rheumatoid arthritis

Jane Buckner, MD

Director of the Translational Research Program
Benaroya Research Institute

Topic: How autoreactive T and B cells escape regulation in autoimmune diseases and are Tregs impaired.

A. Richard Kitching

Professor
Director, Monash Centre for Inflammatory Diseases
Monash University Department of Medicine

Topic: The role of Tregs and intravascular antigen presentation in immune mediated kidney disease
